## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 13 and 24, and consequently depending claims 2-12, 14-23 and 25-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 13 and 24 recites the limitation "the patient's peritoneal cavity" in line 4 of each claim. There is insufficient antecedent basis for this limitation in the claim.

In reference to claims 13 and 24, it is noted that Applicant claims both "a supply of dialysate" and "a therapy fluid". Applicant further claims that both the dialysate and the therapy fluid circulate along the fluid loop (lines 10-11 and 15-16, respectively). However, the last three lines of claim 13, for example, disclose that the "therapy fluid" is circulated and discharged, but claim 22 then states that the dialysate is circulated and discharged. From the language in claim 13, it would appear that there are two distinct fluids, the "therapy fluid" and the "dialysate" which circulate through the fluid loop. The examiner was under the interpretation, however, that the dialysate is the therapy fluid. Does applicant somehow mean to imply that the therapy fluid comprises dialysate? If so, appropriate claim language should be added or reworded clearly present and claim

what is intended. With reference to claim 24, the examiner notes that in line 13 states "the therapy fluid including the dialysate" which is further confusing.

***Allowable Subject Matter***

Claims 1, 13 and 24, and consequently dependent claims 2-12, 14-23 and 25-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
